It has been brought to the notice of the Government of India that the proviso (a) in the Form of Agreement for the engagement of lascars in India, which provides that, save under special agreements voluntarily undertaken, the lasear crew of a vessel shall not be bound to serve on a voyage round Cape Horn, does not prohibit a voyage through the Straits of Magellan. No. 53 Marine.—It has been brought to the notice of the Government, that a number of Arab brokers, known as Mutawifs, who are domiciled Bengal Muhammadans from Arabia, spread incorrect reports of cheap passages and persuade their co-religionists in Bengal, by various methods, to undertake the journey to the Hedjaz to perform the Haj. The Muhammadan residents of this province are therefore specially warned to give no credence to information circulated by irresponsible persons from the Hedjaz. Intending pilgrims should apply direct to the Protector of Pilgrims, Bombay, for any information they may require.

This Government also desires to impress upon the Muhammadans, who intend to perform the Haj, the great desirability of being vaccinated or re-vaccinated as the case may be, before leaving their homes for Bombay. The risk of catching the contagion of small-pox which frequently prevails as a virulent epidemic in the holy cities and other places in Arabia would thus be minimized, and the danger of the disease being annually appropriate into India would be lessered.

writing, and such decision shall be final.

XIV.—When an inspection under the Act is completed, the Inspector making it shall prepare a declaration in Form No. 2 appended hereto, in column 8 of which the limit of the working pressure, in pounds per square inch, shall be clearly noted. The declaration shall then be sent to the owner or agent with a statement, in Form No. 3 appended hereto, of the fees and expenses due on account of the inspection, which must be paid before a certificate can be granted for the boiler and primemover concerned.

XV.—Upon receipt of the declaration in the office of the Commissioner of Police, a certificate shall be prepared in the form prescribed by the Act (Form No. 4 appended hereto). Such certificate shall be signed by the Inspector and the Vice-President, and shall be delivered to the owner, manager or agent

of the steam-boiler inspected, on his paying the fees.

XVI.—For every certificate of inspection granted under the Act, the owner, manager or agent of the steam-boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam-boiler, according to the rates laid down in rule XXI and such additional fee in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XXII.

XVII .- A certificate in Form No. 4 granted under this Act shall not be in force

(1) after the expiration of one year from the date of the

inspection on which the certificate was granted, or
(2) after the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) after notice has been given by the Commissioners to the owner, manager or agent of the steam-boiler to which the certification of the steam of the ficate relates that they have cancelled or suspended it.

XVIII.—There shall be two kinds of inspection of boilers-

(a) When the certificate granted under this Act is about to expire, or when this has been revoked or suspended under section 8 of the Act and the owner desires that it shall be renewed, a thorough examination, inside and outside, shall be made by one of the Inspectors in person, for which purpose the boilers must be empty, cool and clean, and flues swept; and, if required by the Inspector, any parts or settings must be removed for examination of the boiler in every part.

(b) An ordinary inspection may be made by an Inspector at any time for the purpose of ascertaining whether a certificate should be revoked or suspended under section 8 of the Act.

XIX.—The Vice-President and Secretary shall (unless the owner consents to have the boiler ready for inspection on an earlier date approved by the Vice-President and Secretary) give one week's notice of every intended examination under rule XVIII, and warm the owner that if the boiler is not empty, cool, clean and ready for inspection on the date named, there may be delay in issuing or renewing a certificate, which might thus render the owner or person in charge of the boiler liable to a fine of Rs. 500 under section 11 of the Act.

XX.-The Vice-President and Secretary shall submit to the Commission at each meeting the Inspector's reports on the boilers inspected in the form of a diary, which shall be recorded in

the office.

XXI.-Fees for the inspection of boilers and delivery of certificates shall be charged according to the following scale :-

But if any boiler is certificated for a period of less than one year, the fee payable may be reduced to one-twelfth of the above amount for each month or part of a month in the said period; provided that the minimum fee shall in no case be less than onefourth of that shown in the scale.

An additional fee of Rs. 50 to that of the above will be charged for the inspection of a boiler on a Sunday.

XXII .- In addition to the above fees, an Inspector's travelling expenses shall be realized from owners whose boilers are not ready for inspection on the first visit made on their application, whether in Calcutta and its suburbs or in Howrah, or in the added areas, for every additional visit paid by the Inspector

for the completion of inspection.

XXIII.—Registers shall be kept in the office of the Boiler Commission of all boilers inspected, in which full particulars of the boilers shall be entered in the manner prescribed by the Commissioners, and a number shall be allotted to each boiler corresponding to the number of entry regarding it in the register.

The registered number of a boiler is to be conspicuously cut into the front plate by block type three-eighths of an inch large with a Crown mark, and the initial letter of the register over the figures for Calcutta, Raniganj or other register, as the case may be; the marks being enclosed by a rectangular figure, 2½ inches in length by 1¾ inches in breadth, made with a chisel; and the Inspectors are to state in their declarations that this has been done.

XXIV.—The Commissioners shall from time to time, as may seem necessary, make regulations as to the inspection of steam-boilers and fittings, under the provisions of section 6 of Bengal Act III of 1879.

NOTIFICATION.

In pursuance of the Government of Bengal, General Department, Notification No. 4305, dated 23rd November 1909, it is hereby announced that the manuscript copy (in English) of the Model Science Reader for Standards III and IV, which has been prepared on behalf of Government, will be open to inspection by private authors in the office of the undersigned at Writers' Buildings between the hours of 11 a.m. and 4 p.m., from 8th March to 5th April 1910.

Prospective authors are requested to communicate with the Assistant Director of Public Instruction and mention two dates upon which it will be convenient for them to inspect the manuscript. The Assistant Director of Public Instruction will appoint the date and hour at which the manuscript will be available for each intending author's inspection.

The books to be written will require to be submitted for examination by 1st October 1910 at latest if they are to be considered in connection with the prescription of text-books for the first scholarship examinations under the revised syllabus.

Authors are advised that after all scientific terms in the vernacular the English equivalent should be printed in brackets, and that the vernacular terms should be explained in the vernacular in an alphabetical glossary at the end of the book.

Director of Public Instruction, Bengal,

Educational Notice.

With reference to Government Notification No. 4305, dated 23rd November 1909, in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to IV, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals:—

0, 1, 2, etc., 9.

- 2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.
- 3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional Subhankari syllabus to be taught in middle vernacular and upper primary schools.

Educational Notice.

With reference to Government Notification No. 4305, dated 23rd November 1909 in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to IV, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals:—

0, 1, 2, etc., 9.

2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.

3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional Subhankari syllabus to be taught in middle vernacular and upper primary schools.

The marks obtained by candidates under this head will not, however, be taken into account in the award of Government scholarships.

establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and registration form duly filled in and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age, baptismal or of birth (not required, if the candidate is already

in permanent Government employ).

- (3) Certificate that the application is in the candidate's hand-writing. (4) Registration statement containing the following information:
 - (a) Name in full.
 - (b) Father's name.
 - (c) Nationality or class, i.e., European, Eurasian or Indian, of candidate; and if Indian, caste or tribe.
 - (d) Date of birth.
 - (e) Place of birth.
 - (f) Present address.
 - (g) Examinations passed.
 - (h) Thumb mark of candidate, left hand, to be made in the presence of a responsible person who knows candidate.
 - (i) Signature and address of above-mentioned witness.

Note —A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to held the particular examination, and should stat whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates together with their registration statements which should be signed by the Examiner. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Frincipal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates,

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid

will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten, and the Registration statement

prescribed in Rule 2 (4).

Educational Notice.

With reference to Government Notification No. 4305, dated 23rd November 1909 in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to IV, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals:—

0, 1, 2, etc., 9.

The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.

3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional Subhankari syllabus to be taught in middle vernacular and upper primary schools.

EDUCATIONAL NOTICE.

In supersession of the Notice published in Part IC of the Calcutta Gazettes of 23rd and 30th March and of 6th and 13th April 1910.

With reference to Government Notification No. 4305, dated 23rd November 1909, in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to VI, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals:—

- 2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.
- 3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional Subhankari syllabus to be taught in middle vernacular and upper primary schools.

The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates together with their registration statements which should be signed by the Examiner. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the Gollege or at the office of the Examiner of Accounts. - 5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.
- 6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.
- 7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

EDUCATIONAL NOTICE.

In supersession of the Notice published in Part IC of the Calcutta Gazettes of 23rd and 30th March and of 6th and 13th April 1910.

With reference to Government Notification No. 4305, dated 23rd November 1909, in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to VI, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals:—

0, 1, 2, etc., 9.

- 2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.
- 3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional Subhankari syllabus to be taught in middle vernacular and upper primary schools.

Director of Public Instruction, Bengal.
